

FACTSHEET*

B15 & B15 EXTRA LARGE

SINGLE LEAF SLIDING DOOR: EXTRA LARGE (WINDOW POSSIBLE)

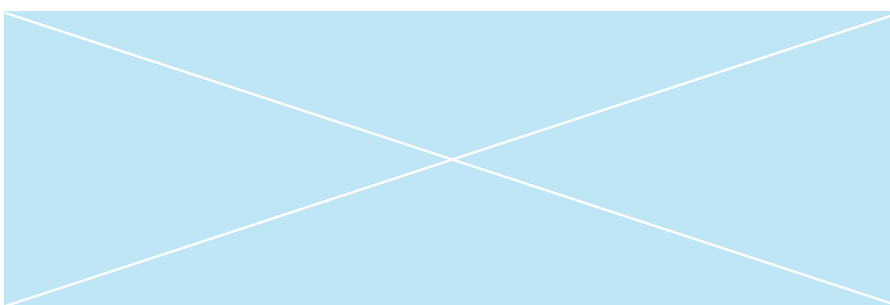

B15 single leaf sliding door is designed for internal use, providing effective insulation and durability for various maritime and offshore environments. Constructed from high-quality materials, this door ensures reliable performance and fire resistance. The B15 single leaf sliding door combines robust construction with effective fire insulation, making it a dependable choice for internal applications in demanding maritime settings with B15 requirements.
