ECS2000 HD

AP.MARINE'S SOLUTION FOR AUTOMATED FIRE HINGED DOORS

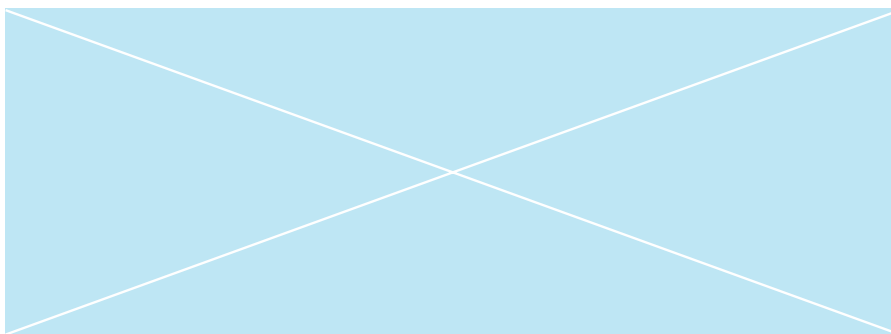

ECS2000 HD - This electrical drive system is designed for hinged doors and optimized for rough internal applications but can also be used externally. With its belt design it guarantees smooth and quiet operation with short reaction times making it the perfect fit for refit and newbuilding projects. Compact design and modularity allow feasibility in most areas despite the high strength, with the possibility to be installed above the door.

TECHNICAL DATA:

- MED-B certified up to A60
- for internal operations
- designed, built and tested according to IMO and Solas regulations
- door weight of up to 413kg
- quiet and smooth operation
- slow drive at the end of closing
- upgradeable up to IPX7
